Remove (Delete) Calendar Resource and E-mail Groups

Remove (Delete) Calendar Resources and E-mail Groups

⚠️ This should only be used to delete calendar resource (not calendar-only and e-mail distribution groups) because it removes the user object permanently.

1. Using the Exchange Management Console, select the mailbox, right-click, and select Remove.

2. Click Yes.

Note: This removes the mailbox permanently.

Remove (Delete) E-mail Security Group

This should only be used to delete e-mail Security Groups.

⚠️ Prior to removing an e-mail Security Group it is important to note if the Security group has been applied to other mailboxes, as those permissions will be revoked upon removing the e-mail group

1. Using the Exchange Management Console, select the mailbox, right-click, and select Remove.

2. Click Yes.

Note: This removes the mailbox permanently.
